

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II / Regulation (EU) No. 2015/830.
- Netherlands (NL)

Date of issue/ Date of revision: 01-01-2023Date of previous issue: noneVersion: 1.0

## SAFETY DATA SHEET

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Product name : Profs Pro Powder Leaves

EC number : 239-289-5

REACH Registration number : 01-2119493947-16 CAS number : 15245-12-2 Product code : 8720726906067

Product type : Solid

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

#### **Identified uses**

Industrial distribution.

Industrial USE to formulate chemical product mixtures.

Professional formulation of fertiliser products.

Professional USE as fertiliser at Farm - loading and spreading.

Professional USE as fertiliser in Greenhouse. Professional USE as liquid fertiliser in open field.

**Uses advised against** : Other non-specified industry

**Reason**: Due to lack of related experience or data, the supplier

cannot approve this use.

#### 1.3. Details of the supplier of the safety data sheet

<u>Address</u>

Street : arrer ra

Postal code :

City : a ar ar e o a

Country : a

Telephone number

E-mail address of person : fo rofs wor s

#### responsible for this SDS

1.4 Emergency telephone number

National advisory body/Poison National Chemical Emergency Centre

Center +31 (0)88 755 8000 (24h).

**Supplier** 

**Emergency telephone number** (with hours of operation)

### SECTION 2: Hazards identification

2.1 classification of the substance or mixture

Product definition: Mono-constituent substance

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Classification: Acute Tox. 4, H302

Eye Dam. 1, H318

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

Hazard pictograms

Signal word Danger

**Hazard statements** H302 Harmful if swallowed.

> H318 Causes serious eye damage.

**Precautionary statements** 

**Prevention** P280 Wear protective gloves and eye protection.

> P270 Do not eat, drink or smoke when using this

product.

P264-a Wash hands thoroughly after handling.

P305 IF IN EYES: Response

> P351 Rinse cautiously with water for several minutes. P338

Remove contact lenses, if present and easy to

do. Continue rinsing.

P310 Immediately call a POISON CENTER or

doctor/physician.

P301 IF SWALLOWED:

P312 Call a POISON CENTER or

doctor/physician if you feel unwell.

P330 Rinse mouth.

EU Regulation (EC) No. 1907/2006 (REACH) Annex XVII: - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles Applicable, Table 65.

#### **Special packaging requirements**

Containers to be fitted with child-resistant fastenings

Not applicable.

Tactile warning of danger : Not applicable.

#### 2.3 Other hazards

#### Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII:

<u>PBT</u>	<u>P</u>	<u>B</u>	I	<u>vPvB</u>	<u>vP</u>	<u>vB</u>
Not applicable (Inorganic)	<u>N/A</u>	<u>N/A</u>	<u>N/A</u>	Not applicable (Inorganic)	<u>N/A</u>	<u>N/A</u>

Other hazards which do not result

in classification

None known.

## SECTION 3: Composition/information on ingredients

**3.1 Substances** : Mono-constituent substance

Product/ingredient name	Identifiers	%	Regulation (EC) No. 1272/2008 [CLP]	Туре
Nitric acid, ammonium calcium salt	RRN: 01-2119493947- 16 EC: 239-289-5 CAS: 15245-12-2	100	Acute Tox. 4, H302 Eye Dam. 1, H318	[A]

#### Type

[A] Constituent

[B] Impurity

[C] Stabilizing additive

See Section 16 for the full text of the H statements declared above.

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

### SECTION 4: First aid measures

#### 4.1 Description of first aid measures

Eye contact : Immediately flush eyes with running water for at

least 15 minutes, keeping eyelids open. Check for and remove any contact lenses. Get medical

attention immediately.

Inhalation : If inhaled, remove to fresh air. Get medical

attention immediately. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing

apparatus.

Skin contact : Gently wash with plenty of soap and water. Do

not rub affected area. Get medical attention if

irritation develops.

Ingestion : Wash out mouth with water. If material has been

swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical

attention if you feel unwell.

Protection of first aiders : No action shall be taken involving any personal

risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. Wash contaminated clothing thoroughly with water before removing

it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Over-exposure signs/symptoms

**Eye contact**: Adverse symptoms may include the following: pain,

watering, redness.

Inhalation : No specific data.

**Skin contact**: Adverse symptoms may include the following:

irritation, redness

**Ingestion** : Adverse symptoms may include the following:

stomach pains

#### 4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician : Treat symptomatically. Contact poison treatment

specialist immediately if large quantities have been

ingested or inhaled. In case of inhalation of

decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept

under medical surveillance for 48 hours.

**Specific treatments**: No specific treatment.

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

Suitable extinguishing media : Use flooding quantities of water for extinction.

Unsuitable extinguishing

media

Do NOT use chemical extinguisher or foam or attempt to smother the fire with steam or sand.

#### 5.2 Special hazards arising from the substance or mixture

Hazards from the substance or

mixture

No specific fire or explosion hazard.

Hazardous combustion products : Decomposition products may include the following

materials: nitrogen oxides, ammonia, Avoid breathing dusts, vapors or fumes from burning materials., In case of inhalation of decomposition products in a fire, symptoms may be delayed.

Remark : Non-flammable substance

5.3 Advice for firefighters

Special protective actions for

fire-fighters

Promptly isolate the scene by removing all persons from the

vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

taken inverting any percentantek er maioak eakable a aliming.

Special protective equipment for

fire-fighters

Fire-fighters should wear appropriate protective equipment

and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a

basic level of protection for chemical incidents.

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel : No action shall be taken involving any personal risk or

without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal

protective equipment (see Section 8).

For emergency responders : If specialized clothing is required to deal with the spillage,

take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For

non-emergency personnel".

**6.2 Environmental precautions** : Avoid dispersal of spilled material and runoff and contact

with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution

(sewers, waterways, soil or air).

#### 6.3 Methods and materials for containment and cleaning up

Small spill : Move containers from spill area. Avoid dust generation.

Using a vacuum with HEPA filter will reduce dust dispersal. Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal

contractor.

Large spill : Move containers from spill area. Approach release from

upwind. Prevent entry into sewers, water courses,

basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA

filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor.

**6.4 Reference to other sections** : See Section 1 for emergency contact information. See

Section 8 for information on appropriate personal protective

equipment.

See Section 13 for additional waste treatment information.

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

Not for human or animal consumption.

**Protective measures** Put on appropriate personal protective equipment (see

Section 8). Do not get in eyes or on skin or clothing. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be

hazardous. Do not reuse container.

Advice on general occupational

hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on

hygiene measures.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Keep away from: organic materials, oil and grease.

#### 7.3 Specific end use(s)

Recommendations Not available.

## SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### Occupational exposure limits

Remark No exposure limit value known

Recommended monitoring

procedures

If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring

may be required to determine the effectiveness of the

ventilation or other

control measures and/or the necessity to use respiratory

protective equipment.

Reference should be made to monitoring standards,

such as the following:

European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy)

European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents)

European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents)

Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

Product/ingredient name	Туре	Exposure	Value	Population	Effects
Nitric, acid, ammonium calcium salt	DNEL	Short term Oral	10 mg/kg bw/day	General population [Consumers]	Systemic

#### **PNECs**

Product/ingredient name	Туре	Compartment Detail	Value	Method Detail
Nitric acid, ammonium calcium salt	PNEC	Sewage Treatment Plant	18 mg/l	Assessment Factors

#### 8.2 Exposure controls

**Appropriate engineering controls**: If user operations generate dust, fumes, gas, vapor or

mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or

statutory limits.

**Individual protection measures** 

**Hygiene measures** : A washing facility or water for eye and skin cleaning

purposes should be present. Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Wash contaminated clothing before

reusing.

Eye/face protection : Safety eyewear complying with an approved standard

should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists,

gases or dusts.

Recommended: Tightly-fitting goggles, CEN: EN166,

**Skin protection** 

**Hand protection** : Chemical-resistant, impervious gloves complying with an

approved standard should be worn at all times when

handling chemical products if a risk assessment indicates this is necessary. For general applications, we recommend gloves with a thickness typically greater than 0.35 mm. It should be emphasized that glove thickness is not necessarily a good predictor of glove resistance to a specific chemical, as the permeation efficiency of the glove will be dependent on the exact composition of the glove material.

> 8 hours (breakthrough time): Protective gloves should

be worn under normal conditions of use.

**Body protection** : Personal protective equipment for the body should be

selected based on the task being performed and the

risks involved.

Other skin protection : Appropriate footwear and any additional skin protection

measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection : In case of inadequate ventilation wear respiratory

protection. Recommended Filter P2 (EN 143).

**Environmental exposure controls**: Emissions from ventilation or work process equipment

should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Personal protective equipment

(Pictograms)

## SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

**Appearance** 

Physical state : Solid (prills)
Color : White.,
Odor : Odorless.
Odor threshold : Not determine

Odor threshold : Not determined.
pH : 5 - 7 [Conc.: 110 g/l]

Melting point/freezing point : 400 °C

Initial boiling point and boiling

range

Not determined

Flash point : Not determined Evaporation rate : Not determined Not determined Non-flammable

Upper/lower flammability or Lower: Not determined explosive limits **Upper:** Not determined

Vapor pressure Not determined Vapor density Not determined

Relative density 2.05

1.100 kg/m3 **Bulk density** 

> 100 g/ISolubility(ies)

Easily soluble in the following materials:

cold water

Water solubility > 100 g/I

Partition coefficient: Not determined

n-octanol/water

Auto-ignition temperature Not determined

Viscosity **Dynamic:** Not determined Kinematic: Not determined

**Explosive properties** Non-explosive.

Oxidizing properties None

9.2 Other information No additional information.

## SECTION 10: Stability and reactivity

No specific test data related to reactivity available 10.1 Reactivity

for this product or its ingredients.

The product is stable. 10.2 Chemical stability

10.3 Possibility of hazardous Under normal conditions of storage and use,

hazardous reactions will not occur. reactions

10.4 Conditions to avoid Avoid contamination by any source including

metals, dust and organic materials.

10.5 Incompatible materials alkalis combustible materials, reducing materials,

organic materials, Acids

Under normal conditions of storage and use, 10.6 Hazardous decomposition

products hazardous decomposition products should not be

produced.

## SECTION 11: Toxicological information

#### 11.1 Information on toxicological effects

#### **Acute toxicity**

Product/ingredie nt name	Method	Species	Result	Exposure	References
Nitric acid, ammoniu	m calcium salt				

OECD 423 LD50 Oral	Rat	500 mg/kg	Not applicable.	CSR
OECD 402 LD50 Dermal	Rat	2,000 - 5,000 mg/kg	Not applicable.	

**Conclusion/Summary**: Harmful if swallowed.

#### Acute toxicity estimates

Product/ingredient name	Oral	Dermal	Inhalation (gases)	Inhalation (vapors)	Inhalation (dusts and mists)
	T	- -	T	T	
No tradename available.	500 mg/kg	N/A	N/A	N/A	N/A
Nitric acid, ammonium calcium salt	500 mg/kg	N/A	N/A	N/A	N/A

#### Irritation/Corrosion

Product/ingredient name	Method	Species	Result	Exposure	References	
Nitric acid, ammonium calcium salt						
	OECD 405 Eyes	Rabbit	Damage	24 - 72 h	CSR	

**Conclusion/Summary** 

Skin : Non-irritating to the skin.

Eyess : Causes serious eye damage.

**Respiratoy**: Non-irritating to the respiratory system.

**Sensitization** 

Conclusion/Summary :

Skin:Not sensitizingRespiratoy:Not determined.

**Mutagenicity** 

Conclusion/Summary : No known significant effects or critical hazards

**Carcinogenicity** 

**Conclusion/Summary** : No known significant effects or critical hazards

Reproductive toxicity

**Conclusion/Summary**: No known significant effects or critical hazards.

Information on the likely : Not available.

routes of exposure:

#### Potential acute health effects

**Inhalation** : May give off gas, vapor or dust that is very irritating or

corrosive to the respiratory system. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**Ingestion**: Harmful if swallowed. May cause burns to mouth,

throat and stomach.

**Skin contact**: No known significant effects or critical hazards.

**Eye contact** : Causes serious eye damage.

#### Symptoms related to the physical, chemical and toxicological characteristics

Inhalation : No specific data.

**Ingestion**: Adverse symptoms may include the following:

stomach pains

**Skin contact**: Adverse symptoms may include the following:

irritation, redness

**Eye contact** : Adverse symptoms may include the following: pain,

watering, redness

#### <u>Delayed and immediate effects and also chronic effects from short and long term exposure</u> <u>Short term exposure</u>

**Potential immediate effects**: Adverse health effects are considered unlikely,

when the product is used according to directions.

Potential delayed effects : None identified.

Long term exposure

Potential immediate effects : Adverse health effects are considered unlikely,

when the product is used according to directions.

Potential delayed effects : None identified.

#### Potential chronic health effects

Product/ingredient name	Method	Species	Result	Exposure	References
Nitric acid, ammoniur	n calcium salt				
	OECD 407 Sub-acute NOAEL Oral	Rat	> 1,000 mg/kg	28 days	CSR

**Carcinogenicity**: No known significant effects or critical hazards.

**Mutagenicity**: No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

**Developmental effects**: No known significant effects or critical hazards.

**Effects on or via lactation** : No known significant effects or critical hazards.

Other effects : No known significant effects or critical hazards.

**Toxicokinetics** 

**Absorption** : Rapidly absorbed.

**Distribution**: Enters the systemic circulation without passing

through liver tissues.

**Metabolism**: Rapidly metabolized. Metabolized to the following:

Ca2+ NH4+ NO3-

**Elimination** : Excreted via the urine.

The chemical and its metabolites are fully excreted

**MSDS PRO POWDER LEAVES** 

and do not accumulate within the body.

Other information : Not available.

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

Product/ingred ient name	Method	Species	Result	Exposure	References
Nitric acid, ammo	nium calcium salt			-	
	Acute LC50 Fresh water	Fish	447 mg/l	48 h	IUCLID 5
	OECD 202 Acute EC50 Fresh water	Daphnia	> 100 mg/l	48 h	CSR
	OECD 201 Acute LC50 Fresh water	Algae	> 100 mg/l	72 h	IUCLID 5
	OECD 209 Acute EC50 Activate d sludge	Activate d sludge	> 1,000 mg/l	3 h	CSR

**Conclusion/Summary**: The product does not show any bioaccumulation

phenomena. The product is not expected to harm the environment when used properly according to

directions.

#### 12.2 Persistence and degradability

Conclusion/Summary : Readily biodegradable in plants and soils

12.3 Bioaccumulative potential

**Conclusion/Summary**: No known significant effects or critical hazards.

12.4 Mobility in soil :

Soil/water partition coefficient (KOC) : < 1

**Mobility** : This product may move with surface or groundwater

flows because its water solubility is: high

#### 12.5 Results of PBT and vPvB assessment

Product/ingredient name	PBT	Р	В	Т	vPvB	vP	vB
Nitric acid, ammonium calcium salt	Not applicable (Inorganic)	N/A	N/A	N/A	Not applicabl e (Inorganic)	N/A	N/A

12.6 Other adverse effects : No known significant effects or critical hazards.

## SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

**Product** 

**Methods of disposal** : The generation of waste should be avoided or

minimized wherever possible. Disposal of this

product, solutions and any by-products should at all

times comply with the requirements of environmental protection and waste disposal

legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste

disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with

the requirements of all authorities with

jurisdiction.

Hazardous waste : Yes.

#### European waste catalogue (EWC)

Waste code	Waste designation
06 10 02*	wastes containing hazardous
	substances

<u>Packaging</u>

<u>Methods of disposal</u> : The generation of waste should be avoided or

minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. Empty the bag by shaking to remove as much as possible of its contents. Empty bags may be disposed of as non-hazardous material or returned

for recycling.

Special precautions : This material and its container must be disposed of

in a safe way.

Care should be taken when handling emptied containers that have not been cleaned or rinsed

out.

Empty containers or liners may retain some product

residues.

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### SECTION 15: Regulatory information

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV - List of substances subject to authorization

**Annex XIV** 

None of the components are listed.

Substances of very high concern

None of the components are listed.

**EU Regulation (EC) No.** : Applicable, Table 65.

1907/2006 (REACH) Annex XVII
- Restrictions on the manufacture, placing on the market and use of certain dangerous substances,

mixtures and articles

**Other EU regulations** 

**Europe inventory** : All components are listed or exempted.

#### Ozone depleting substances (1005/2009/EU)

None of the components are listed.

#### Prior Informed Consent (PIC) (649/2012/EU)

None of the components are listed.

#### **Seveso Directive**

This product is not controlled under the Seveso Directive.

Other regulations : This product is regulated by Regulation

(EU) 2019/1148: all suspicious transactions, and significant

disappearances and thefts should be reported to the relevant national contact

point. Please see

Eye Dam. 1, H318	Calculation method

#### Full text of abbreviated H statements

H302	Harmful if swallowed.
H318	Causes serious eye damage.

#### Full text of classifications [CLP/GHS]

Acute Tox. 4	ACUTE TOXICITY oral - Category 4
Eye Dam. 1	SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1

#### Notice to reader

To the best of our knowledge, the information provided in this Safety Data Sheet is accurate as at the date of its issue. The information it contains is being given for safety guidance purposes and relates only to the specific material and uses described in it. This information does not necessarily apply to that material when combined with other material(s) or when used otherwise than as described herein, since all materials may represent unknown hazards and should be used with caution. Final determination of the suitability of any material is the sole responsibility of the user.

# <u>Annex to the extended Safety Data Sheet (eSDS)</u> - <u>Exposure Scenario/Safe Use Information:</u>

Identification of the substance or mixture

**Product definition**: Mono-constituent substance

Product name | Profs : Pro Powder Leaves

### Annex to the extended Safety Data Sheet (eSDS) -**Exposure Scenario:**

Section 1 — Title

Short title of the exposure

scenario

Profs Pro Powder Leaves - Nitric acid, ammonium calcium salt -

Distribution, Formulation

Identified use name Industrial distribution.

> Industrial USE to formulate fertilisers product mixtures. Industrial USE to formulate chemical product mixtures.

Formulation by incorporating the product onto or into a matrix.

Substance supplied to that

use in form of

As such, In a mixture

List of use descriptors

Section 2 — Exposure controls

#### Contributing scenario controlling environmental exposure for: All

This product is not classified according to EU legislation., As no environmental hazard was identified, no environmental-related exposure assessment and risk characterization was performed.

Contributing scenario controlling worker exposure for:

**Product characteristics** Inorganic salt.

Concentration of substance :

in mixture or article

<= 100 %

**Physical state** Solid.

Liquid.

**Dust** Solid, low dustiness

Frequency and duration of

use

: Use duration (h/d): <= 8

Area of use: : Indoor

Ventilation control

measures

Provide a basic standard of general ventilation (1 to 3 air changes

per hour).

Conditions and measures related to personal protection and hygiene

Advice on general occupational

hygiene

: Pay attention to good general hygiene and housekeeping., Wash hands before breaks and after work., Do not eat, drink or smoke

when using this product.

Personal protection : Wear suitable coveralls to prevent exposure to the skin.,

Chemical splash goggles or face shield.

Wear suitable gloves tested to EN374., breakthrough time: 480 min, Recommended, nitrile, butyl rubber, chloroprene rubber, See

Section 8 of the safety data sheet (personal protective

equipment).

#### Section 3 — Exposure estimation and reference to its source

**Exposure estimation and reference to its source - Environment:** 

Exposure estimation and reference to its source

Not applicable.

**Exposure estimation and reference to its source - Workers:** 

**Exposure**

assessment (human):

Exposure estimation and reference to its source

: Oral exposure is not expected to occur.

Inhalation exposure is considered to be not relevant.

See Section 8 in SDS, DNEL.

## Section 4 — Guidance to DU to evaluate whether he works inside the boundaries set by the ${\sf ES}$

**Environment** : Not applicable.

**Health** : Comply with the safety instructions., Risk management measures

are based on qualitative risk characterisation.

Abbreviations and acronyms

**Process Category** : PROC01 - Chemical production or refinery in closed process

without likelihood of exposure or processes with equivalent

containment conditions

PROC02 - Chemical production or refinery in closed continuous

process with occasional controlled exposure or processes with

equivalent containment conditions

PROC03 - Manufacture or formulation in the chemical industry in

closed batch processes with occasional controlled exposure or

processes with equivalent containment condition

PROC04 - Chemical production where opportunity for exposure

arises

PROC05 - Mixing or blending in batch processes

PROC08a - Transfer of substance or mixture (charging and

discharging) at non-dedicated facilities

PROC08b - Transfer of substance or mixture (charging and

discharging) at dedicated facilities

PROC09 - Transfer of substance or mixture into small containers

(dedicated filling line, including weighing)

ESCOM - Synthesis

PROC13 - Treatment of articles by dipping and pouring PROC14 - Tabletting, compression, extrusion, pelletization,

granulation

PROC15 - Use as laboratory reagent

PROC19 - Manual activities involving hand contact PROC28 - Manual maintenance (cleaning and repair) of

machinery

**Environmental Release** 

Category

ERC02 - Formulation into mixture

ERC03 - Formulation into solid matrix

Market sector by type of

chemical product

PC01 - Adhesives, sealants

PC04 - Anti-freeze and de-icing products

PC09a - Coatings and paints, thinners, paint removers

PC11 - Explosives PC12 - Fertilizers

PC16 - Heat transfer fluids

PC20 - Processing aids such as pH-regulators, flocculants,

precipitants, neutralization agents PC21 - Laboratory chemicals PC29 - Pharmaceuticals

PC35 - Washing and cleaning products

PC37 - Water treatment chemicals

PC39 - Cosmetics, personal care products PC 0: Other: K15000 - Coagulation agents

R30 200 - Raw materials for production of glass and ceramics

H15100 - Curing Agents - Concrete hardeners PC 0: Other: UCN P15100 - Accelerators

PC 0: Other: UCN K35000 - Construction materials (building

materials)

O05990 - Drilling chemicals - Other drilling chemicals

O40000 - Oxidizing agent.

# <u>Annex to the extended Safety Data Sheet (eSDS)</u> - <u>Exposure Scenario:</u>

Section 1 — Title

Short title of the exposure scenario

Profs Pro Powder Leaves - Nitric acid, ammonium calcium salt - Professional, Fertilizer.

Identified use name Professional formulation of fertiliser products.

Professional USE as fertiliser at Farm - loading and spreading.

Professional USE as fertiliser in Greenhouse. Professional USE as liquid fertiliser in open field.

Professional USE as fertiliser - maintenance of equipment.

Substance supplied to that : As such, In a mixture

use in form of

List of use descriptors

**Process Category** PROC05, PROC08a, PROC08b, PROC09, PROC11, PROC13,

PROC15, PROC19, PROC26

**Environmental Release** 

Category

ERC08b, ERC08e

Market sector by type of

chemical product

PC12

Sector of end use SU01, SU10

Subsequent service life

relevant for that use

No.

Number of the ES 08017-3/2018-08-06

#### Section 2 — Exposure controls

#### Contributing scenario controlling environmental exposure for: All

This product is not classified according to EU legislation., As no environmental hazard was identified, no environmental-related exposure assessment and risk characterization was performed.

Contributing scenario controlling worker exposure for:

**Product characteristics** Inorganic salt.

Concentration of substance :

in mixture or article

<= 100 %

**Physical state** Solid.

Liquid.

Date of issue: 08.12.2020 Page:22/24

**Dust** : Solid, low dustiness

Frequency and duration of

use

Use duration (h/d): <= 8

Area of use: : Indoor, Outdoor

Ventilation control

measures

Provide a basic standard of general ventilation (1 to 3 air changes

per hour)., No special ventilation requirements.

Conditions and measures related to personal protection and hygiene

Advice on general

occupational hygiene

Pay attention to good general hygiene and housekeeping., Wash hands and face before breaks and immediately after handling the product., Do not eat, drink or smoke when using this product.

**Personal protection** : Wear suitable coveralls to prevent exposure to the skin.,

Chemical splash goggles or face shield., Wear suitable gloves tested to EN374., butyl rubber, chloroprene rubber, nitrile, See

Section 8 of the safety data sheet (personal protective

equipment).

#### Section 3 — Exposure estimation and reference to its source

**Exposure estimation and reference to its source - Workers:** 

**Exposure** 

assessment (human):

: Qualitative approach used to conclude safe use.

Exposure estimation and reference to its source

: Oral exposure is not expected to occur.

Inhalation exposure is considered to be not relevant.

See Section 8 in SDS, DNEL.

## Section 4 — Guidance to DU to evaluate whether he works inside the boundaries set by the ES

**Environment** : Not applicable.

**Health** : Comply with the safety instructions., Risk management measures

are based on qualitative risk characterisation.

Abbreviations and acronyms

Process Category : PROC05 - Mixing or blending in batch processes

PROC08a - Transfer of substance or mixture (charging and

discharging) at non-dedicated facilities

PROC08b - Transfer of substance or mixture (charging and

discharging) at dedicated facilities

PROC09 - Transfer of substance or mixture into small containers

(dedicated filling line, including weighing)

PROC11 - Nonindustrial spraying

PROC13 - Treatment of articles by dipping and pouring

PROC15 - Use as laboratory reagent

PROC19 - Manual activities involving hand contact

PROC26 - Handling of solid inorganic substances at ambient

temperature

**Environmental Release** 

Category

ERC08b - Widespread use of reactive processing aid (no

inclusion into or onto article, indoor)

ERC08e - Widespread use of reactive processing aid (no

inclusion into or onto article, outdoor)

Market sector by type of

chemical product

: PC12 - Fertilizers

Sector of end use : SU01 - Agriculture, forestry, fishery

SU10 - Formulation [mixing] of preparations and/or re-packaging

(excluding alloys)
